

COVID-19 Safety Protocols for Visitors to AGA

Welcome to AGA!

Your participation in events sponsored by AGA requires you to attest to our health and safety measures. The safety and wellbeing of our staff and visitors is our #1 priority. We are committed to providing safe meeting spaces consistent with CDC guidelines and recommendations. As such, AGA has implemented the below measures to help protect our facility and community.

Mask Mandates

All staff and AGA visitors are required to wear a face covering while in AGA's space and in any public indoor setting in accordance with local guidelines.

Individuals may remove masks only when actively eating, drinking, or making a presentation.

LiveSafe App

All visitors to AGA must be fully vaccinated or have tested negative for COVID-19 at least 72 hours prior to visiting AGA. Using the LiveSafe app, visitors can confirm this information, as well as attest that they do not have any recognized COVID-19 symptoms.

Any visitor who cannot meet or are unwilling to adhere to these requirements will, unfortunately, not be welcomed into AGA's space.

On the next page you will find instructions on how to access our health assessment questionnaire on LiveSafe. You will be required to confirm your COVID-19 fully vaccinated status and or the receipt of a recent negative COVID-19 test result. No one at AGA will ask you for this information, rather we are relying on you to truthfully report your status. If you do not receive a green check mark on your screen, then we ask that you not attend the event sponsored by AGA. Thank you in advance for your cooperation.

Questions or Concerns?

Questions or concerns about the app or AGA's protocols for safe meetings should be directed to your AGA meeting contact.
